1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 3, 4, 7, 8, 9, 10, 14, 15, 16, 17, 18 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Everett.

See Figure 5.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5, 6, 11, 12, 13 and 19 rejected under 35 U.S.C. 103(a) as being unpatentable over Everett in view of Penney.

The claimed invention differs from Everett only in the means for attaching the pads to the support.

Penney shows a brake support having pads B which slide into a groove and are locked into the support via pin f.

It would have been obvious to one of ordinary skill in the art to have utilized a mounting system for the pads, such as shown by Penney, in the shoe of Everett so as to more easily change pads.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sowle and Lott show brake shoe assemblies.
